Portfolio esrat-jahan01097.github.io/esratjahan-portfolio.github.io

Location Dhaka, Bangladesh

CORE COMPETENCIES

- Enterprise Laravel / PHP development
- Oracle PL/SQL & stored procedures
- Database design & performance tuning
- Large-scale data migration
- Queue-based job architecture
- RESTful API design & integration
- Legacy system modernisation
- Machine learning & deep learning
- Cross-functional collaboration

TOOLS & TECHNOLOGIES

Languages: PHP, Python, SQL (Oracle PL/SQL), JavaScript, Java, C#

Frameworks: Laravel, Vue.js, Livewire, Django

Databases: Oracle (OCI8, stored procedures, tuning), MySQL

ML / Data: Scikit-learn, NumPy, Pandas, NLTK, PyTorch, CNNs (ResNet-50), transfer learning, Grad-CAM

DevOps & Tools: Docker, Git, GitLab CI, Postman, Linux, PhpStorm, VS Code, JIRA

WORK EXPERIENCE

Senior Software Engineer

Guardian Life Insurance Limited | Dec 2022 – Present · Dhaka, Bangladesh

- Develop and maintain enterprise Laravel applications powering policy administration and claims workflows for micro-insurance and group business lines.
- Designed a bulk claims approval and settlement system with an automated retry architecture — queued jobs, failure tracking and scheduler-based reprocessing — reducing manual intervention in failed settlements.
- Built invoice generation and merging modules backed by Oracle stored procedures, handling raw OCI bindings and aggregation across micro-invoice and parent invoice tables.
- Develop complex Oracle reporting: claims settlement analytics, lead-time and business-day calculations, and exportable management reports.
- Migrated and upgraded legacy systems to newer stable versions, improving performance and maintainability.
- Standardised multi-project Docker development environments (ARM64) with Oracle Instant Client, adopted across the team.
- Collaborate with cross-functional teams on requirement analysis, API integrations and production deployments.

Laravel Developer

CEMS-Global | May 2022 – Nov 2022 · Dhaka, Bangladesh

- Developed dynamic web systems for the company's international trade fairs and exhibitions.
- Built registration modules handling high-volume concurrent user sign-ups during event launches.

Web Developer Intern

Sylloo Innovation | Feb 2022 – Apr 2022 · Dhaka, Bangladesh

- Built and tested web application features in PHP/Laravel under senior supervision, including dynamic Blade rendering.
- Gathered and analysed requirements directly from clients.

SELECTED PROJECTS

- Claims settlement retry pipeline — Laravel queue jobs with a failed-settlements ledger and scheduled retries against an external settlement API.
- Claims management reporting system — consolidated multi-source queries with DataTables-based Excel/PDF export.
- Smart Food (MSc thesis, ongoing) — cross-cultural food recognition with ResNet-50 on Food-101 extended with Bangladeshi categories (121 classes); continual

LANGUAGES

English: Professional working proficiency

Bengali: Native

learning (EWC), Grad-CAM explainability and Stable Diffusion img2img augmentation.

- Academic Laravel systems — e-commerce platform, job portal and blog platform with authentication, role-based access and full CRUD.

ACADEMIC QUALIFICATIONS

MSc in Data Science

United International University

Jan 2024 – Expected 2026 · CGPA 3.25 (current)

BSc in Software Engineering

Daffodil International University

Aug 2017 – Sep 2021 · CGPA 3.90 / 4.00

HSC (Science)

Cumilla Govt. Victoria College

2016 · GPA 4.08 / 5.00

COURSES & CERTIFICATIONS

- PHP with Laravel Framework — SEIP training, BASIS Institute of Technology & Management (BITM)
- Natural Language Processing Specialization — DeepLearning.AI (Coursera)
- JIRA Mastery with AI — ABP Organization
